Our Company

We are a world-renowned innovator, designer, manufacturer, and marketer of premium performance sport boats, with a leading market position in the U.S., a strong international presence, and dealers in 40 countries around the world. Our boats are used for water skiing, wakeboarding, and wake surfing, as well as general recreational boating. We believe that MasterCraft is the most recognized brand name in the performance sport boat category. Founded in 1968, we have cultivated our iconic brand image through a rich history of industry-leading innovation, which has led to numerous industry achievements, awards, and accolades. Our robust product portfolio of performance sport boats is manufactured to the highest specifications in quality, performance, and styling.

We are committed to delivering an extraordinary boating experience to our customers. From pioneering innovations that improve enjoyment on the water to offering products that promote rapid development of skills, our mission is to help our customers generate memories that will last a lifetime. We utilize a comprehensive product development process in order to build the most relevant and exciting products for our customers, year after year. We believe that our commitment to quality is unsurpassed in the performance sport boat category, and we engage in operational excellence to deploy flexible and effective production systems that ensure we design and build the highest quality boats in the market.

All of our boats, from hull to upholstery, are hand-crafted by our skilled workforce at our corporate headquarters near Knoxville, Tennessee. We use only the highest quality materials from industry-preferred suppliers, and all of our boats are extensively tested on the water at our state-of-the-art facility prior to sale. In recent years, we have made significant investments in improving design, engineering, manufacturing, and operational processes as we strive to be the most efficient performance sport boat manufacturer in the industry. We are the only boat manufacturer to achieve compliance with all three of the International Standard for Organization ("ISO") 9001 (Quality Management Systems), 14001 (Environmental Management Systems), and 18001 (International Occupational Health and Safety Management System) standards. Our industry-leading operations result in world-class quality, which enables us to offer a best-in-class five-year factory warranty and results in MasterCraft boats typically maintaining higher aftermarket resale value than our competitors' boats.

We sell our boats through an extensive network of independent dealers in North America and internationally. Our boats are the exclusive performance sport boats offered by the majority of our dealers. We devote significant time and resources to find, develop, and improve the performance of our dealers. We continuously cultivate and strengthen our dealer relationships with marketing, training, and service programs designed to increase our dealers' sales and profitability. We believe the strength of our dealer network and our proactive efforts to help our dealers improve their businesses give us a distinct competitive advantage in our industry.

Our History

MasterCraft was founded in 1968 when we built our first custom hull ski boat in a two-stall horse barn on a farm in Maryville, Tennessee. Dissatisfied with the large wakes and pull of other ski boats, we designed a hull that had the smallest wake in the industry: smooth and low at slalom and jump speeds yet well-defined at trick speeds. Our roots in performance water ski boats were reinforced as we evolved over the next 40 years to produce leading performance-oriented boats in the wakeboarding and wake surfing categories. Today, we continue to produce the industry's premier competitive water ski, wakeboarding, and wake surfing performance boats that also address our customers' needs for versatility, flexibility, fun, and functionality.

Our Market Opportunity

During 2015, retail sales of new powerboats in the U.S. totaled \$7.8 billion. Of the categories defined and tracked by the National Marine Manufacturers Association ("NMMA"), our core market corresponds most directly to the inboard ski/wakeboard category, which we refer to as the performance sport boat category. We believe our addressable market also includes similar and adjacent powerboat categories identified by the NMMA, including sterndrive boats, outboard boats, and jet boats. For 2015, retail sales of new performance sport boats, sterndrive boats, outboard boats, and jet boats in the U.S. were \$686 million, \$924 million, \$3,828 million, and \$208 million, respectively. As a result, we believe the total annual addressable market for our products in the U.S. alone is greater than \$5.6 billion.

We believe we are well-positioned to benefit from several trends underway in our addressable market, including:

- performance sport boats are taking greater share of the overall fiberglass powerboat category;
- dealer inventory positions have improved across the industry;
- recreational boating participation in the U.S. reached 87.3 million adults in 2014, a 32.5% increase since 2009;
- inventory of two to five year old pre-owned boats has become limited, driving consumers to purchase new boats;
- ease-of-use and performance innovations have accelerated product cycles driving consumer demand for new products; and
- higher consumer confidence influenced by improving macroeconomic conditions, including increased home values, and greater workforce participation, has helped to drive increased consumer demand for powerboats.

As the recovery in the general economy and overall boating industry from the economic downturn that commenced in 2008 has continued, the performance sport boat category has experienced a robust recovery. According to Statistical Surveys, Inc. ("SSI"), new unit sales of performance sport boats in the U.S. increased at a compound annual growth rate ("CAGR") of 12.6% from 2012 to 2015 while new unit sales of all fiberglass power boats increased at a CAGR of 2.4% in the U.S. over the same period. We believe the performance sport boat category has grown at a faster rate due to increased innovation in the features, designs, and layouts of performance sport boats. These innovations have improved the performance, functionality, and versatility of these boats as compared with other recreational powerboats, particularly boats in the sterndrive category, which have not experienced the same degree of innovation. We believe inboard boats are superior to sterndrive boats for tow sports such as water skiing, wakeboarding, and wake surfing for several reasons, including (i) the larger and more propulsive wakes that only inboard engine configurations can enable, (ii) enhanced rider safety as a result of the location of the inboard propeller underneath the boat instead of protruding from the stern, as is generally the case with boats in the sterndrive category, and (iii) relatively more passenger and storage space due to the location of the inboard engine housing.

Performance sport boats have also continued to take share from other powerboat categories, in particular the sterndrive category, with new performance sport boat unit sales volume steadily increasing from 2002 through 2015 as a percentage of the total combined new unit sales volume of performance sport and sterndrive boats. We believe our strong market share position and broad offering of boat models and features will continue to attract customers from other powerboat categories to our performance sport boats. While the performance sport boat category has grown in recent years, new unit sales remained significantly below historical peaks. According to NMMA, the 7,800 new performance sport boat units sold in 2015 were 40.2% below the observed peak in 2006.

The expanding popularity of boating has also contributed to the strong recovery in volumes. According to NMMA, 87.3 million adults participated in recreational boating in 2014, a 32.5% increase since 2009. We believe we are well-positioned to benefit from the increased popularity of recreational boating and the resulting larger prospective customer base.

Our Strengths

Iconic Brand Synonymous with Quality, Innovation, and Performance. — We believe the MasterCraft brand is well-known among boating enthusiasts for high performance, premier quality, and relentless innovation. We believe that the market recognizes MasterCraft as a premier and aspirational brand in the performance sport boat category due to the overall superior value proposition that our boats deliver to our customers.

The MasterCraft brand is built on a carefully crafted set of defining principles:

- **Legacy:** Our heritage of successful product innovations has contributed to our status as one of the most widely recognized and aspirational brands in the boating industry. We work tirelessly every day to maintain our iconic brand reputation relative to our competition.
- **Power:** MasterCraft boats are renowned for their superior performance. For example, our flagship water ski boat, the ProStar, which was introduced in 2013, is widely recognized as the premier three-event ski boat in the industry and has been responsible for driving a number of world record ski and ski jumping performances since its launch, including the Men's World Jump Record of 312 feet and new records in over 50 events at the 2014 World 35+ Water Ski Championships, as well as numerous personal records for amateur skiers around the world.
- **Precision:** The rigorous attention to detail with which we design and manufacture our products results in high quality boats that command significant resale premiums to comparable competitor boats. The high quality and durability of our products allow us to offer a "stem-to-stern" five-year warranty that comprehensively covers more parts of our boats than warranties offered by any of our competitors.
- **Progression:** Our brand is known to represent innovation and achievement. For example, only MasterCraft boats offer a longer, more powerful "Zone 4" surfing wake, which was introduced on the MasterCraft X23, the winner of the 2015 NMMA Innovation Award. "Zone 4" wakes are measured as 15 to 20 feet from the swim platform of the boat and provide more traversable wave surface area and the ability to surf bigger boards. We have pioneered multiple technological innovations in the industry, many of which have advanced the performance standards of our industry and have garnered innovation awards from organizations such as the NMMA and Boating Writers International.

Leading Market Share Position in Performance Sport Boat Category. — Over the last decade, we have consistently held a leading market share position in the U.S. among manufacturers of premium performance sport boats based on unit volume. According to SSI, our U.S. market share in 2015 was 21.7%. We believe our sales have grown as dealers and customers continue to recognize the superior quality, performance, styling, and value of our recently released boats and that we are just starting to realize the market share benefits of the many recent new product offerings and product enhancement initiatives that our management team has implemented during the past several years. For example, we anticipate our newly-developed MasterCraft NXT line of entry-level boats will further increase our market share as it represents our first offering in this market segment, which accounts for approximately one-third of the performance sport boat category.

Industry-Leading Product Design and Innovation. — We believe that our innovation in the design of new boat models and new features has been a key to our success, helping us maintain our market share, command higher price points, and generally broaden the appeal of our products among recreational boaters. As a result of the features we have introduced, we believe that our boats are used for an increasingly wide range of activities. Our commitment to consistently developing new boat models and introducing new features is reflected in several notable recent achievements, including NMMA Innovation Awards for our ProStar water skiing boat, Gen 2 integrated surf system and X23 performance tow boat. These MasterCraft products won three of the combined six Innovation Awards for the performance sport boat category presented by the NMMA at the 2014 and 2015 Miami Boat Shows. Recently we launched the new Dockstar Handling System which is an innovative flanking rudder system that allows drivers of any ability level to easily maneuver tight spaces and crowded marinas in reverse. Our entire product portfolio has been renewed in the past five years, giving us the newest overall product offering in the performance sport boat category, which we believe positions us for strong growth in the coming periods.

Highly Efficient Product Development and Manufacturing. — A key to our success has been our renewed focus on operational improvements and world-class business processes. We believe our new product development capabilities are industry-leading and enable us to consistently create unique high performance hull shapes and product features in shorter design iterations and at lower development costs than our competitors. These capabilities enable us to precisely design custom hulls and performance features that enhance each boat's unique performance characteristics and increase our speed to market with exciting new products.

We have also made recent significant investments in infrastructure, value-added processes, and engineering. These investments have resulted in lower material waste, reduced labor hours per boat, reduced re-work, and increased production efficiencies. We were named a 2015 IndustryWeek Best Plant in North America Recipient — the only boat manufacturer to receive that honor. In addition, our manufacturing quality performance has allowed us to reduce our warranty costs even while offering an industry-leading five-year "stem-to-stern" warranty. We believe that our scalability and operational efficiency has allowed us to limit our annual Company-wide weighted average boat price increase to less than 3% annually from model year 2013 to model year 2016, enabling us to narrow the pricing gap between us and our competitors. We are able to narrow this pricing gap while increasing margins by controlling costs through our highly disciplined engineering and manufacturing processes.

Strong Dealer Network. — We have worked extensively with our dealers to develop what we believe is the strongest dealer network in the performance sport boat category. Our extensive dealer network allows us to distribute our products more effectively than our competitors. We target our distribution on the category's highest performing dealers, with more of our dealers placing in Boating Industry magazine's Top 20 Dealers

than any of our competitors in the performance sport boat category. We have established operating processes focused on optimizing dealers' financial performance and service, and with a track record of balancing wholesale inventory and retail sales we are better able to manage dealer inventory, allowing for more transparent sales estimates and strong dealer relationships. In addition, we have established a "stem-to-stern" five-year warranty for all of our product lines. We believe our warranty is simpler and more transparent than those of our competitors, and provides consumers with more peace of mind. This industry-leading warranty encourages customers to continue to visit our dealers for servicing, creating additional opportunities for boat trade-ins and purchases of accessories, thereby improving our dealers' sales rates and financial health. These actions have strengthened our existing dealer network and are driving increased interest from new potential dealers who want to join the MasterCraft platform.

Differentiated Sales and Marketing Capabilities. — We believe our marketing efforts support the MasterCraft brand promise by focusing on the superior MasterCraft value proposition and differentiating the performance and features of our boats. To highlight our performance credibility and generate additional brand excitement, we sponsor the #2, #3, and #5 ranked professional wakeboarding athletes, the #2 ranked water ski jumper, and the #3 ranked male and #3 ranked female water skiers, who all trust the performance of our boats to enhance their careers. In addition, we partner with Surfing Magazine and musician and avid surfer, Donavon Frankenreiter, to promote our boats' wake surfing capabilities and our brand lifestyle. We also partner with other innovative athletes and brands, such as Travis Pastrana, GoPro, Nixon, Hobie, ESPN, and Sanuk, all offering compelling co-marketing opportunities to expand our brand's lifestyle positioning. We believe our superior sales and marketing capabilities effectively communicate our performance, styling, quality, authenticity, and lifestyle, resulting in increased overall customer engagement.

Highly Experienced Management Team. — We have a highly seasoned and effective management team. With an average of more than 25 years of boating industry experience per member, our management team has proven its ability to develop and integrate new product lines, enhance operations, strengthen our distribution network, and recruit industry talent. Senior management additions over the past few years have driven improvements to our manufacturing, quality, and product development systems and processes, which have collectively accelerated performance improvements as unit volumes have increased. Our President and Chief Executive Officer, Terry McNew, has 29 years of boating industry experience. He joined MasterCraft in August 2012 after serving as Executive Vice President of Brunswick Corp's recreational boat group, where he was in charge of manufacturing, product development, and engineering and quality systems. His leadership has helped us implement dramatic process improvements contributing to superior results. Tim Oxley, our Chief Financial Officer, has spent 26 years in the boating industry, including ten years with MasterCraft, following 16 years with Brunswick Corp. where he served as Chief Financial Officer of several operating divisions. Our management team has produced superior results compared to our competitors, including sales growth, award-winning product innovation, and significant margin expansion.

Our Strategy

We intend to capitalize on the ongoing recovery in the broader boating industry and performance sport boat category through the following strategies:

Continue to Develop New and Innovative Products in Our Core Market. — As a leading innovator, designer, manufacturer, and marketer of premium performance sport boats, we strive to design new and inventive products that appeal to a broad customer base. Since the completion of our management changes in fiscal 2013, we have successfully launched a number of new products and features with best-in-class quality leading to increased sales and significant margin expansion. Furthermore, our unique new product

development process enables us to renew our product portfolio with innovative offerings at a rate that we believe will be difficult for our competitors to match without significant additional capital investments. Our process involves each department in collaborative full "team" product launches that enable us to release three new models per year while maintaining superior quality and controlling costs. Our entire product portfolio has been renewed in the past five years. We intend to continue releasing new products and features multiple times during the year, which we believe enhances our reputation as a cutting-edge boat manufacturer and will drive consumer interest in our products.

Penetrate the Entry-Level and Mid-Level Segments of the Performance Sport Boat Category. — Our near-term product development strategy is to expand our product line to reach underserved segments of the performance sport boat category that are distinct from our traditional customer base. We believe the launch of our MasterCraft NXT product line in fiscal 2014 has made the MasterCraft brand more accessible to a much broader demographic of the recreational boating industry and will continue to do so in the future. The MasterCraft NXT product line allows us to penetrate the entry-level segment of our market, which has grown at a compound annual growth rate of 26.6% over the last four years, with 2,872 total boats sold across the segment in 2015. With the NXT product line, we are targeting a new market segment for MasterCraft with a product that offers the highest levels of quality, style, reliability, functionality, and performance expected from our MasterCraft brand. This strategy contrasts with that of a number of our competitors, which have targeted this market segment with alternative value brands. The unique design of the MasterCraft NXT, along with our existing supplier relationships, material agreements, and manufacturing processes, allows us to offer this product at an attractive price point for the consumer while sustaining our gross margins and the product attributes critical to the MasterCraft brand. Further broadening our consumer base, we recently launched the new XT23, MasterCraft's latest multi-sport model. Designed to be a do-it-all crossover, the new XT23 will anchor our new XT line of boats targeting the sweet spot between our entry-level NXT line and the award-winning, premium X series.

Capture Additional Share from Adjacent Boating Categories. — Our culture of innovation enhances our ability to introduce new products with increased versatility, functionality, and performance to a more expansive customer base that values boats for both water sports and general recreational boating purposes. We have experienced success with several recent marketing campaigns that focus on new product launches and help to educate the market on our value proposition to customers. Ultimately, the versatile boating experience delivered by our performance sport boats allows us to attract customers from other boating categories, most notably from the sterndrive category. For example, the MasterCraft X26, one of our 26 foot boat models, has the capacity to seat 18 people and offers the quality, performance, and styling associated with our iconic brand in a package that can compete with large day cruisers in the sterndrive category.

We intend to further enhance the performance, comfort, and versatility of our products in order to target additional crossover customers seeking high performance powerboats for general recreational activity. We believe that several of our recently launched and planned new products will appeal to a broader range of recreational boaters by offering the performance benefits of our products, including superior drivability and water sports versatility, while also providing greater seating capacity and comfort, a roomy, plush interior and extensive storage space to allow an increased number of family and friends to spend time together on the water.

Continuous Operational Improvement to Drive Margin Expansion. — We continue to implement a number of initiatives to reduce our cost base and to improve the efficiency of our manufacturing process. We revamped our manufacturing and product development processes, which led to operational efficiencies that have driven significant margin expansion despite lower average boat sale price increases than our competitors. These

process improvements have lowered re-work, warranty claims, material waste, and inventory levels, significantly reducing our costs, and have driven improved on-time delivery rates. Additionally, we have fostered a culture of operational improvement within our highly engaged workforce. We have also implemented a faster and more disciplined product development process, which will allow us to completely renew our product portfolio every four years. These processes are now ingrained in the culture at MasterCraft, leading to a company-wide focus on driving further margin expansion through continuous improvement. We believe these important process improvements and culture of operational excellence provide us with a strong operational foundation for future growth.

Effectively Manage Dealer Inventory and Further Strengthen Our Dealer Network. — Our goal is to achieve and maintain a leading market share in each of the markets in which we operate. We view our dealers as our partners and product champions. Therefore, we devote significant time and resources to finding high quality dealers, and developing and improving their performance over time. We actively manage dealer inventory levels, as demonstrated by healthy and consistent inventory retail turns and balanced wholesale and retail unit sales, which leads to better margins and improved financial health for our dealers. Additionally, our unique "stem-to-stern" warranty and predictable new product development cycle ensure that our dealers have high quality, compelling, and relevant products to sell to their customers. We believe the quality and trust in our dealer relationships are more beneficial to our long-term success than the quantity of dealers. We continue to leverage that dealer base while proactively developing strategies that will strengthen our overall network. For example, we intend to strengthen our current footprint by selectively recruiting market-leading dealers. We believe our targeted initiatives to enhance and grow our dealer network will increase unit sales in the future.

Increase Our Sales in International Markets. — We currently have an extensive international distribution network with 43 international dealers in 56 locations around the world. We believe we have the most well-known brand in the performance sport boat category globally. Based on our brand recognition, innovative product offerings, and distribution strengths, we believe we are well positioned to leverage our reputation and capture additional international sales. We believe that we will increase our international sales by promoting our new products in developed markets where we have a well-established dealer base and in international markets where rising consumer incomes are expected to increase demand for recreational products, such as Australia, Europe, Israel, Dubai, and Brazil. We are also developing new product offerings that will specifically target certain product demand from our international consumers and that we believe will drive further sales growth in international markets. Net sales outside of North America represented 8.6% of net sales volume in fiscal 2016.

- (1) The weighted average shares used for computation of basic and diluted earnings per common share gives effect to the 11.139-for-1 stock split consummated on July 22, 2015 in connection with the Company's initial public offering and excludes the 6,071,429 shares sold for periods prior to fiscal year ended June 30, 2016.
- (2) We define MasterCraft sales as net sales less net sales associated with Hydra-Sports.
- (3) We define EBITDA as earnings before interest expense, income taxes, depreciation and amortization. We define Adjusted EBITDA as EBITDA further adjusted to eliminate certain non-cash charges and other items that we do not consider to be indicative of our ongoing operations, including change in common stock warrant fair value, fees and expenses related to the our initial public offering, our stock-based compensation and the results of operations of our terminated Hydra-Sports manufacturing contract. We define Adjusted net income as net income (loss) adjusted to eliminate certain non-cash charges and other items that we do not consider to be indicative of our ongoing operations, including change in common stock warrant fair value, fees and expenses related to our initial public offering, our stock-based compensation and the results of operations of our terminated Hydra-Sports manufacturing contract and an adjustment for income tax expense at a normalized annual effective tax rate. We define Adjusted EBITDA margin as Adjusted EBITDA expressed as a percentage of MasterCraft sales. Adjusted EBITDA, Adjusted net income and Adjusted EBITDA margin are not measures of net (loss) income or operating income as determined under accounting principles generally accepted in the United States, which we refer to as GAAP. Adjusted EBITDA and Adjusted net income are not measures of performance in accordance with GAAP and should not be considered as an alternative to net income (loss) or operating cash flows determined in accordance with GAAP. Additionally, Adjusted EBITDA is not intended to be a measure of cash flow for management's discretionary use. We believe that the inclusion of EBITDA, Adjusted EBITDA and Adjusted net income is appropriate to provide

additional information to investors because securities analysts, noteholders and other investors use these non GAAP financial measures to assess our operating performance across periods on a consistent basis and to evaluate the relative risk of an investment in our securities. We use Adjusted net income to facilitate a comparison of our operating performance on a consistent basis from period to period that, when viewed in combination with our results prepared in accordance with GAAP, provides a more complete understanding of factors and trends affecting our business than GAAP alone measures. We believe Adjusted net income assists our board of directors, management and investors in comparing our net income on a consistent basis from period to period because it removes non-cash and non-recurring items. Adjusted EBITDA and Adjusted net income have limitations as an analytical tool and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future and Adjusted EBITDA does not reflect any cash requirements for such replacements;
- Adjusted EBITDA does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Adjusted EBITDA does not reflect our tax expense or any cash requirements to pay income taxes;
- Adjusted EBITDA does not reflect interest expense, or the cash requirements necessary to service interest payments on our indebtedness; and
- Adjusted net income and Adjusted EBITDA do not reflect the impact of earnings or charges resulting from matters we do not consider to be indicative of our ongoing operations, but may nonetheless have a material impact on our results of operations, including the operations related to our Hydra-Sports manufacturing contract for periods prior to its termination.

In addition, because not all companies use identical calculations, our presentation of Adjusted EBITDA and Adjusted net income may not be comparable to similarly titled measures of other companies, including companies in our industry.

The following table sets forth a reconciliation of Adjusted EBITDA to net income as determined in accordance with U.S. GAAP for the periods indicated (unaudited):

This adjustment was calculated by identifying the applicable cost of sales and operating expenses directly attributable to the Hydra-Sports business for such period, excluding any corporate overhead or other shared costs.

RISK FACTORS

An investment in our common stock involves a high degree of risk. Before making an investment decision, you should carefully consider the specific risks described under the heading "Risk Factors" in the applicable prospectus supplement and under the caption "Risk Factors" in any of our filings with the SEC pursuant to Sections 13(a), 14 or 15(d) of the Exchange Act, including our Annual Report on Form 10-K for the year ended June 30, 2016, filed with the SEC on September 8, 2016, which is incorporated by reference into this prospectus supplement. If any of these risks, as well as other risks and uncertainties that are not yet identified or that we currently think are immaterial, actually occur, our business, results of operations or financial condition could be materially and adversely affected. In such an event, the trading price of our common stock could decline and you could lose part or all of your investment.

Risks Related to this Offering and Ownership of our Common Stock

Wayzata and its affiliates will continue to have significant influence over us after this offering and may also pursue corporate opportunities independent of us that could present potential conflicts with our and our stockholders' interests.

Upon consummation of this offering, Wayzata will beneficially own, in the aggregate, approximately 30.8% of our outstanding common stock, assuming no exercise of the underwriters' option to purchase additional shares of common stock. See "Selling Stockholders" for more information on our beneficial ownership. As a result, Wayzata will continue to exercise significant influence over all matters requiring stockholder approval, including the election of directors, amendment of our amended and restated certificate of incorporation and approval of significant corporate transactions and will continue to have significant control over our management and policies. Three of the 7 members of our board of directors are employees of Wayzata Investment Partners, which is an affiliate of Wayzata. Wayzata can take actions that have the effect of delaying or preventing a change of control of us or discouraging others from making tender offers for our shares, which could prevent stockholders from receiving a premium for their shares. These actions may be taken even if other stockholders oppose them. The concentration of voting power with Wayzata may have an adverse effect on the price of our common stock. The interests of Wayzata may not be consistent with your interests as a stockholder. After the lock-up period expires, Wayzata will be able to transfer to a third party their common stock, which would not require the approval of our board of directors or our other stockholders, which would result in a different party having significant influence over us.

Our amended and restated certificate of incorporation provides that the doctrine of corporate opportunity does not apply against any director that is not an employee of the Company, including directors who are employees of or affiliated with Wayzata, in a manner that would prohibit them from investing or participating in competing businesses. To the extent Wayzata affiliated funds invest in such other businesses, they may have differing interests than our other stockholders. For example, Wayzata affiliated funds currently own and may choose to own in the future other companies in our industry through other investments, which may compete with our brand. Accordingly, the interests of Wayzata may supersede ours, causing it or its affiliates to compete against us or to pursue opportunities instead of us, for which we have no recourse. These actions on the part of Wayzata and inaction on our part could adversely impact our business, financial condition and results of operations.

We will not be a "controlled company" within the meaning of the rules of Nasdaq upon completion of this offering. However, during the phase-in period we may continue to rely on exemptions from certain corporate governance requirements that provide protection to stockholders of other companies.

We have been a "controlled company" under Nasdaq corporate governance listing standards. As a controlled company, we have been exempt under Nasdaq listing standards from the obligation to comply with certain of Nasdaq's corporate governance requirements, including the requirements:

- that a majority of our board of directors consist of independent directors, as defined under the rules of Nasdaq;
- that we have a nominating committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities; and
- that we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities.

Following this offering, Wayzata will own less than 50% of the total voting power of our common stock. Accordingly, we will no longer be a "controlled company" within the meaning of the rules of Nasdaq. Under Nasdaq rules, a company that ceases to be a controlled company must comply with the independent board committee requirements as they relate to the nominating and corporate governance and compensation committees on the following phase-in schedule: (1) one independent committee member at the time it ceases to be a controlled company, (2) a majority of independent committee members within 90 days of the date it ceases to be a controlled company and (3) all independent committee members within one year of the date it ceases to be a controlled company. Additionally, Nasdaq rules provide a 12-month phase-in period from the date a company ceases to be a controlled company to comply with the majority independent board requirement. During these phase-in periods, our stockholders will not have the same protections afforded to stockholders of companies of which the majority of directors are independent. Additionally, if, within the phase-in periods, we are not able to recruit additional directors who would qualify as independent, or otherwise comply with Nasdaq rules, we may be subject to enforcement actions by Nasdaq. Furthermore, a change in our board of directors and committee membership may result in a change in corporate strategy and operation philosophies, and may result in deviations from our current growth strategy.

You may be diluted by future issuances of common stock in connection with our incentive plans, acquisitions, or otherwise; future sales of such shares in the public market, or the expectations that such sales may occur, could lower our stock price.

Our amended and restated certificate of incorporation authorizes us to issue shares of common stock and options, rights, warrants, and appreciation rights relating to common stock for the consideration and on the terms and conditions established by our board of directors in its sole discretion, whether in connection with acquisitions or otherwise.

We have reserved shares for issuance under the 2015 Plan in an amount equal to 1,721,478 shares as of August 30, 2016. On May 29, 2015, we granted 841,584 shares of restricted stock under the 2015 Plan and, in connection with our initial public offering, we granted equity awards under the 2015 Plan covering a total of 184,932 shares of common stock. In addition, on April 22, 2016 we granted a further 6,120 shares of restricted stock under the 2015 Plan and on August 25, 2016 we granted an additional 81,748 shares of restricted stock under the 2015 Plan. Any common stock that we issue, including under our 2015 Plan or other equity incentive plans that we may adopt in the future, would dilute the percentage ownership of holders of our common stock.

The market price of our common stock may decline significantly when the restrictions on resale by our existing stockholders lapse. A decline in the price of our common stock might impede our ability to raise capital through the issuance of additional shares of common stock or other equity securities.

In connection with the completion of our initial public offering, we entered into a Registration Rights Agreement with our existing owners. Any sales in connection with the Registration Rights Agreement, or the prospect of any such sales, could materially impact the market price of our common stock and could impair our ability to raise capital through future sales of equity securities.

Our common stock price may be volatile or may decline regardless of our operating performance.

It is possible that an active trading market for our common stock will not be sustained, which could make it difficult for you to sell your shares of common stock at an attractive price or at all.

Volatility in the market price of our common stock may prevent you from being able to sell your shares at or above the price you paid for them. Many factors, which are outside our control, may cause the market price of our common stock to fluctuate significantly, including those described under "— Risks Related to Our Business" in the section titled "Risk Factors" in our Annual Report on Form 10-K, which is incorporated by reference herein, and the following

- our operating and financial performance and prospects;
- our quarterly or annual earnings or those of other companies in our industry compared to market expectations;
- conditions that impact demand for our services;
- future announcements concerning our business or our competitors' businesses;
- the public's reaction to our press releases, other public announcements, and filings with the SEC;
- the size of our public float;
- coverage by or changes in financial estimates by securities analysts or failure to meet their expectations;
- market and industry perception of our success, or lack thereof, in pursuing our growth strategy;
- strategic actions by us or our competitors, such as acquisitions or restructurings;
- changes in laws or regulations that adversely affect our industry or us;
- changes in accounting standards, policies, guidance, interpretations, or principles;
- changes in senior management or key personnel;
- issuances, exchanges or sales, or expected issuances, exchanges or sales of our capital stock;
- changes in our dividend policy;
- adverse resolution of new or pending litigation against us; and
- changes in general market, economic, and political conditions in the U.S. and global economies or financial markets, including those resulting from natural disasters, terrorist attacks, acts of war, and responses to such events.

As a result, volatility in the market price of our common stock may prevent investors from being able to sell their common stock at or above the price they paid for it or at all. These broad market and industry factors may materially reduce the market price of our common stock, regardless of our operating performance. In addition, price volatility may be greater if the public float and trading volume of our common stock is low. As a result, you may suffer a loss on your investment.

We do not intend to pay dividends on our common stock for the foreseeable future.

While we have paid dividends in the past, we presently have no intention to pay dividends on our common stock at any time in the foreseeable future. Any decision to declare and pay dividends in the future will be

made at the discretion of our board of directors and will depend on, among other things, our results of operations, financial condition, cash requirements, contractual restrictions, and other factors that our board of directors may deem relevant. Certain of our debt instruments contain covenants that restrict the ability of our subsidiaries to pay dividends to us. In addition, we will be permitted under the terms of our debt instruments to incur additional indebtedness, which may restrict or prevent us from paying dividends on our common stock. Furthermore, our ability to declare and pay dividends may be limited by instruments governing future outstanding indebtedness we may incur.

Delaware law and certain provisions in our amended and restated certificate of incorporation may prevent efforts by our stockholders to change the direction or management of our Company.

We are a Delaware corporation, and the anti-takeover provisions of Delaware law impose various impediments to the ability of a third party to acquire control of us, even if a change of control would be beneficial to our existing stockholders. In addition, our amended and restated certificate of incorporation and our amended and restated by-laws contain provisions that may make the acquisition of our company more difficult without the approval of our board of directors, including, but not limited to, the following:

- our board of directors is classified into three classes, each of which serves for a staggered three-year term;
- only our board of directors may call special meetings of our stockholders;
- our stockholders have only limited rights to amend our by-laws; and
- we require advance notice and duration of ownership requirements for stockholder proposals.

These provisions could discourage, delay, or prevent a transaction involving a change in control of our company. These provisions could also discourage proxy contests and make it more difficult for you and other stockholders to elect directors of your choosing and cause us to take other corporate actions you desire. In addition, because our board of directors is responsible for appointing the members of our management team, these provisions could in turn affect any attempt by our stockholders to replace current members of our management team.

If securities analysts do not publish research or reports about our company, or if they issue unfavorable commentary about us or our industry or downgrade our common stock, the price of our common stock could decline.

The trading market for our common stock will depend in part on the research and reports that third-party securities analysts publish about our company and our industry. We may be unable or slow to attract research coverage and if one or more analysts cease coverage of our company, we could lose visibility in the market. In addition, one or more of these analysts could downgrade our common stock or issue other negative commentary about our company or our industry. As a result of one or more of these factors, the trading price of our common stock could decline.

FORWARD-LOOKING STATEMENTS

This prospectus supplement and the documents incorporated by reference in this prospectus supplement contains "forward-looking statements." We use words such as "could," "may," "might," "will," "expect," "likely," "believe," "continue," "anticipate," "estimate," "intend," "plan," "project," and other similar expressions to identify some forward-looking statements, but not all forward-looking statements include these words. All of our forward-looking statements involve estimates and uncertainties that could cause actual results to differ materially from those expressed in the forward-looking statements. Accordingly, any such statements are qualified in their entirety by reference to the information described under the section titled "Risk Factors" in our Annual Report on Form 10-K, which is incorporated by reference herein and elsewhere in this prospectus.

The forward-looking statements contained in this prospectus supplement are based on assumptions that we have made in light of our industry experience and our perceptions of historical trends, current conditions, expected future developments, and other factors we believe are appropriate under the circumstances. As you read and consider this prospectus supplement, you should understand that these statements are not guarantees of performance or results. They involve risks, uncertainties (many of which are beyond our control), and assumptions. Although we believe that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect our actual operating and financial performance and cause our performance to differ materially from the performance anticipated in the forward-looking statements. We believe these factors include, but are not limited to, those described under the sections titled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K, which is incorporated by reference herein. Should one or more of these risks or uncertainties materialize, or should any of these assumptions prove incorrect, our actual operating and financial performance may vary in material respects from the performance projected in these forward-looking statements.

Further, any forward-looking statement speaks only as of the date on which it is made, and except as required by law, we undertake no obligation to update any forward-looking statement contained in this prospectus supplement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances. New factors that could cause our business not to develop as we expect emerge from time to time, and it is not possible for us to predict all of them. Further, we cannot assess the impact of each currently known or new factor on our results of operations or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

USE OF PROCEEDS

The selling stockholders will receive all of the proceeds offered by this prospectus supplement. We will not receive any proceeds from the sale of shares of our common stock by the selling stockholders.

MARKET PRICE OF COMMON STOCK

Our common stock has been listed on Nasdaq under the symbol "MCFT" since July 16, 2015. Before then, there was no public market for our common stock. On September 9, 2016, the last reported sales price of our common stock was \$11.67.

The following table sets forth, for the period indicated, the high and low sales prices of our common stock as reported by Nasdaq.

Period	High	Low

Fiscal 2016		
Fourth quarter	\$ 15.97	\$ 10.25
Third quarter	\$ 14.73	\$ 10.99
Second quarter	\$ 14.82	\$ 10.70
First quarter (from July 17, 2015)	\$ 16.47	\$ 11.93

On September 9, 2016, we had approximately 19 holders of record of our common stock. The actual number of stockholders is greater than this number of record holders, and includes stockholders who are beneficial owners but whose shares are held in street name by brokers and other nominees.

DIVIDEND POLICY

During fiscal year 2015, we paid cash dividends in the aggregate amount of \$44 million to our stockholders. In addition, on May 27, 2016, we paid a special cash dividend of \$4.30 per share, an aggregate payment of \$79.9 million, to holders of our common stock of record as of June 6, 2016.

We currently intend to retain all available funds and any future earnings to fund the development and growth of our business and to repay indebtedness. While we recently paid a special dividend to holders of our common stock, we do not anticipate paying cash dividends to holders of our common stock in the foreseeable future. Additionally, our ability to pay dividends on our common stock is limited by restrictions on the ability of our subsidiaries and us to pay dividends or make distributions to us under the terms of the agreements governing our indebtedness. Any future determination to pay dividends will be at the discretion of our board of directors, subject to compliance with covenants in current and future agreements governing our indebtedness, and will depend upon our results of operations, financial condition, capital requirements and other factors that our board of directors deems relevant.

Accordingly, you may need to sell your shares of our common stock to realize a return on your investment, and you may not be able to sell your shares at or above the price you paid for them. See "Risk Factors — Risks Related to this Offering and Ownership of our Common Stock — We do not intend to pay dividends on our common stock for the foreseeable future."

SELLING STOCKHOLDERS

The table below sets forth information with respect to the beneficial ownership of our shares of common stock held by the selling stockholders as of September 9, 2016.

Beneficial ownership for the purposes of the following table is determined in accordance with the rules and regulations of the SEC. These rules generally provide that a person is the beneficial owner of securities if such person has or shares the power to vote or direct the voting thereof, or to dispose or direct the disposition thereof or has the right to acquire such powers within 60 days. Percentage of beneficial ownership is based on 18,591,808 shares of common stock outstanding as of September 9, 2016. Except as disclosed in the footnotes to this table and subject to applicable community property laws, we believe that the selling stockholders identified in the table possess sole voting and investment power over all shares of common stock shown as beneficially owned by the selling stockholders.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS

Overview

The following is a summary of the material U.S. federal income tax consequences of the purchase, ownership, and disposition of our common stock to a non-U.S. holder (as defined below) that purchases shares of our common stock in this offering. For purposes of this summary, a "non-U.S. holder" means a beneficial owner of our common stock that is not a "U.S. person" or a partnership for U.S. federal income tax purposes. A U.S. person is any of the following:

- an individual who is a citizen or resident of the United States, as defined for U.S. federal income tax purposes;
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust (1) whose administration is subject to the primary supervision of a U.S. court and which has one or more U.S. persons who have the authority to control all substantial decisions of the trust, or (2) that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person for U.S. federal income tax purposes.

In the case of a holder that is classified as a partnership for U.S. federal income tax purposes, the tax treatment of a partner in such partnership generally will depend upon the status of the partner and the activities of the partnership. If you are a partner in a partnership holding our common stock, then you should consult your own tax advisor.

This summary is based upon the provisions of the U.S. Internal Revenue Code of 1986, as amended, which we refer to as the "Code", the U.S. Treasury regulations promulgated thereunder and administrative and judicial interpretations thereof, all as of the date hereof. Those authorities may be changed, perhaps retroactively, so as to result in U.S. federal income tax consequences different from those summarized below. We cannot assure you that a change in law, possibly with retroactive application, will not alter significantly the tax consequences described in this summary. We have not sought and do not plan to seek any ruling from the U.S. Internal Revenue Service, which we refer to as the "IRS", with respect to the statements and conclusions set forth in the following summary, and there can be no assurance that the IRS or a court will agree with such statements and conclusions.

This summary does not address all aspects of U.S. federal income taxes that may be relevant to non-U.S. holders in light of their personal circumstances, and does not address federal taxes other than the U.S. federal income tax, or address state, local or non-U.S. tax considerations. Special rules, not discussed here, may apply to certain non-U.S. holders, including (without limitation):

- U.S. expatriates or former citizens or long-term residents of the United States;
- controlled foreign corporations;
- passive foreign investment companies;
- qualified foreign pension funds and entities owned by a qualified pension fund;
- qualified shareholders (within the meaning of Section 897(k)(3) of the Code); and
- pass-through entities (or investors in such entities) that are subject to special treatment under the Code.

Such non-U.S. holders should consult their own tax advisors to determine the U.S. federal, state, local and other tax consequences that may be relevant to them.

This summary applies only to a non-U.S. holder that holds our common stock as a capital asset (within the meaning of Section 1221 of the Code).

If you are considering the purchase of our common stock, you should consult your own tax advisor concerning the particular U.S. federal income tax consequences to you of the purchase, ownership and disposition of our common stock, as well as the consequences to you arising under U.S. tax laws other than the U.S. federal income tax laws or under the laws of any other taxing jurisdiction.

Dividends

As discussed under the section entitled "Dividend Policy" above, we do not currently anticipate paying any dividends to holders of our common stock in the foreseeable future. If we make a distribution of cash or property (other than certain distributions of our common stock) with respect to our common stock (or complete a redemption that is treated as a distribution with respect to our common stock), such distribution will be treated as a dividend for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits (as determined under U.S. federal income tax principles). Dividends paid to you generally will be subject to withholding of U.S. federal income tax at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty) of the gross amount of the dividends. However, dividends that are effectively connected with the conduct of a trade or business by you within the United States and, in cases in which certain tax treaties require, are attributable to a U.S. permanent establishment maintained by you, are not subject to the withholding tax, but instead are subject to U.S. federal income tax on a net income basis at applicable graduated individual or corporate rates. Certain certification and disclosure requirements including delivery of a properly executed IRS Form W-8ECI must be satisfied for effectively connected income to be exempt from U.S. federal withholding tax. Any such effectively connected dividends received by a foreign corporation may also be subject to a "branch profits tax" at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. Non-U.S. holders should consult their tax advisors regarding applicable tax treaties that may provide for different rules.

If the amount of a distribution paid on our common stock exceeds our current and accumulated earnings and profits, such excess will be allocated ratably among each share of common stock with respect to which the distribution is paid and treated first as a tax-free return of capital to the extent of your adjusted tax basis in each such share, and thereafter as capital gain from a sale or other taxable disposition of such share of common stock that is taxed to you as described below under the heading "Gain on Disposition of Common Stock." Your adjusted tax basis in a share of our common stock is generally the purchase price of such share, reduced by the amount of any such tax-free returns of capital (but not below zero).

If you wish to claim the benefit of an applicable income tax treaty to avoid or reduce withholding of U.S. federal income tax on dividends, then you must (i) provide the applicable withholding agent with a properly completed IRS Form W-8BEN or W-8BEN-E (or other applicable form) and certify under penalties of perjury that you are not a U.S. person and are eligible for treaty benefits, or (ii) if you hold our common stock through certain foreign intermediaries (including partnerships), satisfy the relevant certification requirements of applicable U.S. Treasury regulations by providing appropriate documentation to the intermediaries (which then will be required to provide certification to the applicable withholding agent, either directly or through other intermediaries).

If you are eligible for a reduced rate of U.S. federal income tax pursuant to an income tax treaty, then you may obtain a refund or credit of any excess amounts withheld by timely filing an appropriate claim with the

IRS. You should consult your tax advisor regarding your entitlement to benefits under any applicable income tax treaty.

Gain on Disposition of Common Stock

You generally will not be subject to U.S. federal income tax with respect to gain realized on the sale or other taxable disposition of our common stock (other than a redemption that is treated as a distribution for U.S. federal income tax purposes and taxed as described above), unless:

- the gain is effectively connected with a trade or business you conduct in the United States, and, in cases in which certain tax treaties require, is attributable to a U.S. permanent establishment maintained by you;
- if you are an individual, you are present in the United States for 183 days or more in the taxable year of the sale or other taxable disposition, and you have a "tax home" (as defined in the Code) in the United States; or
- we are or have been a "United States real property holding corporation" for U.S. federal income tax purposes at any time within the shorter of (i) the five-year period ending on the date of the sale or other taxable disposition of our common stock and (ii) your holding period for our common stock.

If you are a non-U.S. holder described in the first bullet point above, you generally will be subject to tax on the net gain derived from the disposition under regular graduated U.S. federal income tax rates. If you are a foreign corporation described in the first bullet point above, you may also be subject to a branch profits tax equal to 30% of your effectively connected earnings and profits or such lower rate as may be specified by an applicable income tax treaty. If you are an individual described in the second bullet point above, you will generally be subject to a flat 30% (or such lower rate as may be specified by an applicable income tax treaty) tax on the gain derived from the disposition, which may be offset by certain U.S. source capital losses (even though you are not considered a resident of the United States) but may not be offset by any capital loss carryovers.

With respect to the third bullet point above, we believe that we are not currently, and we do not anticipate becoming, a United States real property holding corporation. However, because the determination of whether we are a United States real property holding corporation depends on the fair market value of our United States real property interests relative to the fair market value of our global real property interests and other business assets, there can be no assurance that we are not a United States real property holding corporation and will not become one in the future. In the event we do become a United States real property holding corporation, as long as our common stock is regularly traded on an established securities market, gain on a sale or disposition of our common stock will generally be subject to taxation pursuant to the third bullet point above only if you actually or constructively held more than 5% of our common stock at any time during the shorter of (i) the five-year period ending on the date of the sale or disposition of our common stock or (ii) your holding period for our common stock. If gain on the sale or other taxable disposition of our common stock were subject to taxation under the third bullet point above, you would be subject to regular U.S. federal income tax with respect to such gain in generally the same manner as a U.S. person.

You should consult your tax advisor regarding potentially applicable income tax treaties that provide for different rules.

Information Reporting and Backup Withholding Tax

We must report annually to the IRS and to you the amount of dividends paid to you and the amount of tax, if any, withheld with respect to such dividends. The IRS may make this information available to the tax authorities in the country in which you are resident.

In addition, you may be subject to information reporting requirements and backup withholding (currently at a rate of 28%) with respect to dividends paid on, and the proceeds from the disposition of, shares of our common stock, unless, generally, you certify to the applicable withholding agent under penalties of perjury (usually on IRS Form W-8BEN or W-8BEN-E) that you are not a U.S. person or you otherwise establish an exemption.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which you reside (or are established).

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against your U.S. federal income tax liability, provided the required information is timely furnished by you to the IRS.

Additional Withholding Tax

Sections 1471 through 1474 of the Code (commonly referred to as "FATCA") generally will impose a 30% withholding tax on dividends paid on our common stock and, beginning after December 31, 2018, gross proceeds from the sale or other disposition of our common stock, in each case if the common stock is held by or through:

- certain foreign financial institutions (including investment funds), unless the institution otherwise qualifies for an exemption or enters into an agreement with the U.S. Treasury (i) to collect and report, on an annual basis, information with respect to accounts in the institution held by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons, and (ii) to withhold 30% on certain payments; or
- a non-financial non-U.S. entity, unless the entity (i) either certifies to the applicable withholding agent or the IRS that the entity does not have any "substantial United States owners" or provides certain information regarding the entity's "substantial United States owners" or (ii) otherwise establishes an exemption from such withholding tax.

The rules described above may be modified by an intergovernmental agreement entered into between the United States and an applicable foreign country, or by future U.S. Treasury regulations or other guidance. Non-U.S. holders are encouraged to consult their tax advisors regarding the possible implications of these rules on their investment in our common stock.

POTENTIAL PURCHASERS OF OUR COMMON STOCK ARE URGED TO CONSULT THEIR OWN TAX ADVISORS TO DETERMINE THE U.S. FEDERAL, STATE, LOCAL AND NON-U.S. TAX CONSIDERATIONS OF PURCHASING, OWNING AND DISPOSING OF OUR COMMON STOCK.

UNDERWRITING

Robert W. Baird & Co. Incorporated and Wells Fargo Securities, LLC are serving as joint book-running managers and representatives of the underwriters in this offering. We, the selling stockholders and the underwriters named below, have entered into an underwriting agreement with respect to the shares of common stock being offered hereby. Subject to certain conditions set forth in the underwriting agreement, each underwriter has severally agreed to purchase, at the public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus, the number of shares of common stock set forth in the following table.

Underwriters	Number of Shares
Robert W. Baird & Co. Incorporated	
Wells Fargo Securities, LLC	
Total	4,000,000

The underwriters are committed to purchase all of the shares offered by the selling stockholders, if any are purchased, other than the shares covered by the option described below. The obligations of the underwriters under the underwriting agreement may be terminated upon the occurrence of certain stated events, including that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or this offering may be terminated.

The selling stockholders have granted the underwriters an option to buy up to an additional 600,000 shares of common stock to cover sales by the underwriters which exceed the number of shares specified in the table above. The underwriters have 30 days from the date of this prospectus to exercise this option. If any shares are purchased pursuant to this option, the underwriters will severally purchase shares in approximately the same proportion as set forth in the table above. If any additional shares of common stock are purchased, the underwriters will offer the additional shares on the same terms as those on which the shares are being offered.

If all of the shares are not sold at the public offering price, the underwriters may change the offering price and other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriter's right to reject any order in whole or in part.

The underwriters propose to offer the common shares directly to the public at the initial public offering price set forth on the cover page of this prospectus and to certain dealers at that price less a concession not in excess of \$ per share.

The underwriting fee is equal to the public offering price per share of common stock, less the amount paid by the underwriters to the selling stockholders per share of common stock. The underwriting fee is \$ per share. The following table sets forth the per share and total underwriting discounts and commissions to be

paid to the underwriters, assuming both no exercise and full exercise of the underwriters' option to purchase 600,000 additional shares.

	Paid by the Selling Stockholders		Total Fees	
		No Exercise	Full Exercise	
Per Share		\$	\$	
Total		\$	\$	

We estimate that the total expenses of this offering, excluding underwriting discounts and commissions, will be approximately \$0.25 million, which will be paid by us. We have agreed to reimburse the underwriters for certain expenses including in connection with the qualification of the offering with the Financial Industry Regulatory Authority, Inc. ("FINRA") in an amount up to \$30,000. Such reimbursement is deemed to be underwriting compensation by FINRA.

We have agreed that we will not (i) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, (ii) enter into any swap or other arrangement that transfers all or a portion of the economic consequences associated with the ownership of any shares of common stock or any such other securities (regardless of whether any of these transactions are to be settled by the delivery of shares of common stock or such other securities, in cash or otherwise), or (iii) file any registration statement with the SEC relating to the offering of any shares of common stock or any securities convertible into or exercisable or exchangeable for common stock, in each case without the prior written consent of Baird and Wells Fargo Securities for a period of 90 days after the date of this prospectus, other than the shares of our common stock to be sold hereunder and any shares of our common stock issued upon the exercise of options granted under our existing management incentive plans.

Our directors and executive officers and Wayzata have entered into lock-up agreements with the underwriters prior to the commencement of this offering pursuant to which each of these persons or entities, with limited exceptions, for a period of 90 days after the date of this prospectus, may not, without the prior written consent of Baird and Wells Fargo Securities, (1) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, any shares of our common stock or any securities convertible into or exercisable or exchangeable for our common stock (including, without limitation, common stock or such other securities which may be deemed to be beneficially owned by such directors, executive officers, managers, and members in accordance with the rules and regulations of the SEC and securities which may be issued upon exercise of a stock option or warrant) or (2) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the common stock or such other securities, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of common stock or such other securities, in cash or otherwise, or (3) make any demand for or exercise any right with respect to the registration of any shares of our common stock or any security convertible into or exercisable or exchangeable for our common stock, other than the shares of our common stock to be sold hereunder.

The underwriters do not expect sales to discretionary accounts to exceed 5% of the total number of shares offered.

Our common stock is listed on the Nasdaq Global Market under the symbol "MCFT."

The company and the selling stockholders have agreed to indemnify the several underwriters and their controlling persons against certain liabilities, including liabilities under the Securities Act.

Stabilization, Short Positions, and Penalty Bids

In connection with this offering, the underwriters may effect certain transactions in shares of our common stock in the open market in order to prevent or retard a decline in the market price of our common stock while this offering is in progress. These transactions may include short sales, purchases to cover positions created by short sales, and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering, and a short position represents the amount of such sales that has not been covered by subsequent purchases. "Covered" shorts are short positions in an amount not greater than the underwriters' option described herein, and "naked" shorts are short positions in excess of that amount. In determining the source of shares to close out a "covered" short, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option. A "covered" short may be covered by either exercising the underwriters' option or purchasing shares in the open market. A "naked" short is more likely to be created if underwriters are concerned that there may be downward pressure on the price of our common stock in the open market prior to the completion of the offering, and may only be closed out by purchasing shares in the open market. Stabilizing transactions consist of various bids for or purchases of our common stock made by the underwriters in the open market prior to the completion of the offering.

In addition, the underwriters may, pursuant to Regulation M of the Securities Act, also impose a penalty bid, which is when a particular underwriter repays to the other underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of that underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or slowing a decline in the market price of our common stock, and together with the imposition of a penalty bid, may stabilize, maintain, or otherwise affect the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. If these activities are commenced by the underwriters, they may be discontinued at any time. These transactions may be effected on NASDAQ, in the over-the-counter market, or otherwise.

Electronic Distribution

In connection with this offering, certain of the underwriters may distribute prospectuses by electronic means, such as email. In addition, certain of the underwriters may facilitate Internet distribution for this offering to certain of their Internet subscription customers, and allocate a limited number of shares for sale to their online brokerage customers. A prospectus in electronic format is being made available on the website maintained by one or more of the bookrunners of this offering and may be made available on websites maintained by the other underwriters. Other than the prospectus in electronic format, the information on any

underwriter's website and any information contained in any other website maintained by an underwriter is not a part of the prospectus or the registration statement, of which this prospectus forms a part.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, investment research, hedging, financing, and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may provide from time to time in the future, various financial advisory and investment banking services for us, for which they have received or will receive customary fees and expenses.

In addition, in the ordinary course of their various business activities, certain of the underwriters and their respective affiliates may from time to time effect transactions for their own account or the account of their customers, and hold on behalf of themselves or their customers, long or short positions in our debt or equity securities (including related derivative securities) and financial instruments (including bank loans), and may continue to do so in the future. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Each of the underwriters may arrange to sell common stock offered by this prospectus in certain jurisdictions outside the United States, either directly or through affiliates, where they are permitted to do so.

- to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150 natural or legal persons (other than qualified investors as defined in the EU Prospectus Directive); or
- in any other circumstances falling within Article 3(2) of the EU Prospectus Directive, provided that no such offer of securities described in this prospectus shall result in a requirement for the publication by us of a prospectus pursuant to Article 3 of the EU Prospectus Directive.

For the purposes of this provision, the expression an "offer of securities to the public" in relation to any securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe for the securities, as the same may be varied in that Member State by any measure implementing the EU Prospectus Directive in that Member State. The expression "EU Prospectus Directive" means European Union Prospectus Directive 2003/71/EC (and any amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in each Relevant Member State, and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

DESCRIPTION OF CAPITAL STOCK

The following description summarizes important terms of our capital stock. For a complete description, you should refer to our amended and restated certificate of incorporation and amended and restated bylaws, copies of which are available upon request from us, as well as the relevant portions of the Delaware General Corporation Law, or DGCL.

Common Stock

General. Our amended and restated certificate of incorporation authorizes the issuance of 100,000,000 shares of our common stock. As of June 30, 2016, there were 18,591,808 shares of our common stock outstanding, par value \$0.01 per share, and 20 stockholders of record. The number of holders of record is based upon the actual number of holders registered at such date and does not include holders of shares in "street name" or persons, partnerships, associates, corporations or entities in security position listings maintained by depositories.

Voting rights. Holders of shares of our common stock are entitled to one vote for each share held of record on all matters submitted to a vote of stockholders. Except as otherwise provided in our amended and restated certificate of incorporation or as required by law, all matters to be voted on by our stockholders other than matters relating to the election and removal of directors must be approved by a majority of the shares present in person or by proxy at the meeting and entitled to vote on the subject matter or by a written resolution of the stockholders representing the number of affirmative votes required for such matter at a meeting. The holders of our common stock do not have cumulative voting rights in the election of directors.

Dividend rights. Holders of shares of our common stock are entitled to receive dividends when and if declared by our board of directors out of funds legally available therefor, subject to any statutory or contractual restrictions on the payment of dividends and to any restrictions on the payment of dividends imposed by the terms of any outstanding preferred stock.

Other matters. Upon our dissolution or liquidation or the sale of all or substantially all of our assets, after payment in full of all amounts required to be paid to creditors, the holders of shares of our common stock will be entitled to receive pro rata our remaining assets available for distribution. Holders of shares of our common stock do not have preemptive, subscription, redemption, or conversion rights, no redemption or sinking fund provisions are applicable to our common stock. All outstanding shares of common stock are fully paid and nonassessable.

Preferred Stock

Our amended and restated certificate of incorporation permits our board of directors, without further action of stockholders, to issue up to 10,000,000 shares of preferred stock from time to time in one or more classes or series. Our board of directors has the discretion to determine the rights, preferences, privileges, and restrictions, including voting rights, dividend rights, conversion rights, redemption privileges, and liquidation preferences, of each class or series of preferred stock. The purpose of authorizing our board of directors to issue preferred stock and determine its rights and preferences is to eliminate delays associated with a stockholder vote on specific issuances. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions, future financings, and other corporate purposes, could have the effect of making it more difficult for a third party to acquire, or could discourage a third party from seeking to acquire, a majority of our outstanding voting stock. Additionally, the issuance of preferred stock may adversely affect the holders of our common stock by restricting dividends on the common stock, diluting the voting power of the common stock, or subordinating the liquidation rights of the common stock. As a result of these or other factors, the issuance of preferred stock could have an adverse impact on the market price of our common stock.

Currently, there are no shares of preferred stock outstanding, and we have no present intention to issue any shares of preferred stock.

Registration Rights

We entered into a registration rights agreement with certain funds controlled by Wayzata Investment Partners LLC, which we refer to collectively as Wayzata, and certain of our existing stockholders in connection with our initial public offering. The terms of the registration rights agreement include provisions for demand registration rights in favor of Wayzata. Subject to the terms of the registration rights agreement, Wayzata has the right to require that we register its remaining shares under the Securities Act for sale to the public. After registration and sale pursuant to these rights, these shares will become freely tradable without restriction under the Securities Act. The registration rights agreement also provides for piggyback registration rights for all stockholders that are parties to the agreement.

We must pay all expenses, except for underwriters' discounts and commissions, incurred in connection with the exercise of these demand and piggyback registration rights. The registration rights agreement does not provide for the payment of any consideration by us to holders of registrable shares if a registration statement for the resale of shares of common stock held by holders of registrable shares is not declared effective or if the effectiveness is not maintained.

Forum Selection

Our amended and restated certificate of incorporation provides that unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware will, to the fullest extent permitted by applicable law, be the sole and exclusive forum for (i) any derivative action or proceeding brought on our behalf; (ii) any action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers or other employees to us or our stockholders; (iii) any action asserting a claim against us, any director or our officers or employees arising pursuant to any provision of the DGCL, our amended and restated certificate of incorporation or our amended and restated bylaws; or (iv) any action asserting a claim against us, any director or our officers or employees that is governed by the internal affairs doctrine, except, as to each of clauses (i) through (iv) above, for any claim as to which the Court of Chancery determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, or for which the Court of Chancery does not have subject matter jurisdiction.

Anti-Takeover Provisions

Our amended and restated certificate of incorporation and amended and restated bylaws, as well as the DGCL, contain provisions that may delay, defer, or discourage another party from acquiring control of us. These provisions, which are summarized below, may discourage coercive takeover practices or inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors, which we believe may result in an improvement of the terms of any such acquisition in favor of our stockholders. However, they also give our board of directors the power to discourage acquisitions that some stockholders may favor.

Section 203 of the DGCL. We are subject to Section 203 of the DGCL. Subject to certain exceptions, Section 203 prevents a publicly held Delaware corporation from engaging in a "business combination" with any "interested stockholder" for three years following the date that the person became an interested stockholder, unless the interested stockholder attained such status with the approval of our board of directors or unless the business combination is approved in a prescribed

manner. A "business combination" includes, among other things, a merger or consolidation involving us and the "interested stockholder" and the sale of more than 10% of our assets. In general, an "interested stockholder" is any entity or person beneficially owning 15% or more of our outstanding voting stock and any entity or person affiliated with or controlling or controlled by such entity or person.

Classified Board of Directors. Our amended and restated certificate of incorporation divides our board of directors into three classes with staggered three-year terms. In addition, our amended and restated certificate of incorporation and amended and restated bylaws provide that directors may be removed only for cause. Under our amended and restated certificate of incorporation and amended and restated bylaws, any vacancy on our board of directors, including a vacancy resulting from an enlargement of our board of directors, may be filled only by the affirmative vote of a majority of our directors then in office, even though less than a quorum of the board of directors. The classification of our board of directors and the limitations on the ability of our stockholders to remove directors and fill vacancies could make it more difficult for a third party to acquire, or discourage a third party from seeking to acquire, control of us.

Authorized but Unissued Shares. The authorized but unissued shares of our common stock and our preferred stock are available for future issuance without stockholder approval, subject to any limitations imposed by the listing standards of The Nasdaq Global Market. These additional shares may be used for a variety of corporate finance transactions, acquisitions, and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could make more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger, or otherwise.

Stockholder Action by Written Consent. Our amended and restated certificate of incorporation and amended and restated bylaws provide that any action required or permitted to be taken by our stockholders at an annual meeting or special meeting of stockholders may only be taken if it is properly brought before such meeting and may be taken by written consent in lieu of a meeting only if the action to be effected by such written consent and the taking of such action by such written consent have been previously approved by the board of directors.

Special Meetings of Stockholders. Our amended and restated bylaws also provide that, except as otherwise required by law, special meetings of the stockholders may only be called by our board of directors.

Advance Notice Requirements for Stockholder Proposals and Director Nominations. In addition, our amended and restated bylaws provide for an advance notice procedure for stockholder proposals to be brought before an annual meeting of stockholders, including proposed nominations of candidates for election to our board of directors. In order for any matter to be "properly brought" before a meeting, a stockholder must comply with advance notice and duration of ownership requirements and provide us with certain information. Stockholders at an annual meeting may only consider proposals or nominations specified in the notice of meeting or brought before the meeting by or at the direction of our board of directors or by a qualified stockholder of record on the record date for the meeting, who is entitled to vote at the meeting and who has delivered timely written notice in proper form to our secretary of the stockholder's intention to bring such business before the meeting. These provisions could have the effect of delaying stockholder actions that are favored by the holders of a majority of our outstanding voting securities until the next stockholder meeting.

Amendment of Certificate of Incorporation or Bylaws. The DGCL provides generally that the affirmative vote of a majority of the shares entitled to vote on any matter is required to amend a corporation's certificate of incorporation or bylaws, unless a corporation's certificate of incorporation or bylaws, as the case may be, requires a greater percentage. Our amended and restated bylaws may be

amended or repealed by a majority vote of our board of directors or by the affirmative vote of the holders of at least 66²/₃% of the votes which all our stockholders would be eligible to cast in an election of directors. In addition, the affirmative vote of the holders of at least 66²/₃% of the votes which all our stockholders would be eligible to cast in an election of directors is required to amend or repeal or to adopt any provisions inconsistent with any of the provisions of our certificate of incorporation described in the prior three paragraphs.

Limitations on Liability and Indemnification of Officers and Directors

Our amended and restated certificate of incorporation and amended and restated bylaws provide indemnification for our directors and officers to the fullest extent permitted by the DGCL. In addition, as permitted by Delaware law, our amended and restated certificate of incorporation includes provisions that eliminate the personal liability of our directors for monetary damages resulting from breaches of certain fiduciary duties as a director. The effect of these provisions is to restrict our rights and the rights of our stockholders in derivative suits to recover monetary damages against a director for breach of fiduciary duties as a director, except that a director will be personally liable for:

- any breach of his duty of loyalty to us or our stockholders;
- acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- any transaction from which the director derived an improper personal benefit; or
- improper distributions to stockholders.

These provisions may be held not to be enforceable for violations of the federal securities laws of the United States.

Corporate Opportunity Doctrine

Delaware law permits corporations to adopt provisions renouncing any interest or expectancy in certain opportunities that are presented to the corporation or its officers, directors, or stockholders. Our amended and restated certificate of incorporation, to the maximum extent permitted from time to time by Delaware law, renounces any interest or expectancy that we have in, or right to be offered an opportunity to participate in, specified business opportunities that are from time to time presented to certain of our officers, directors, or stockholders or their respective affiliates, other than those officers, directors, stockholders, or affiliates who are our or our subsidiaries' employees. Our amended and restated certificate of incorporation provides that, to the fullest extent permitted by law, none of Wayzata or any director who is not employed by us or his or her affiliates has any duty to refrain from (1) engaging in a corporate opportunity in the same or similar lines of business in which we or our affiliates now engage or propose to engage or (2) otherwise competing with us or our affiliates. In addition, to the fullest extent permitted by law, in the event that Wayzata or any non-employee director acquires knowledge of a potential transaction or other business opportunity which may be a corporate opportunity for itself or himself or its or his affiliates or for us or our affiliates, such person or entity has no duty to communicate or offer such transaction or business opportunity to us or any of our affiliates and they may take any such opportunity for themselves or offer it to another person or entity. Our amended and restated certificate of incorporation does not renounce our interest in any business opportunity that is expressly offered to a non-employee director solely in his or her capacity as a director or officer of MCBC Holdings, Inc. To the fullest extent permitted by law, no business opportunity is deemed to be a potential corporate opportunity for us unless we would be permitted to undertake the opportunity under our amended and restated certificate of incorporation, we have sufficient financial resources to undertake the opportunity, and the opportunity would be in line with our business.

Dissenters' Rights of Appraisal and Payment

Under the DGCL, with certain exceptions, our stockholders have appraisal rights in connection with a merger or consolidation of MCBC Holdings, Inc. Pursuant to the DGCL, stockholders who properly request and perfect appraisal rights in connection with such merger or consolidation have the right to receive payment of the fair value of their shares as determined by the Delaware Court of Chancery.

Stockholders' Derivative Actions

Under the DGCL, any of our stockholders may bring an action in our name to procure a judgment in our favor, also known as a derivative action, provided that the stockholder bringing the action is a holder of our shares at the time of the transaction to which the action relates or such stockholder's stock thereafter devolved by operation of law.

Listing

Our common stock is listed on The Nasdaq Global Market under the symbol "MCFT."

The transfer agent and registrar for our common stock is American Stock Transfer & Trust Company, LLC.

We will pay all costs, expenses and fees in connection with the registration of the shares of common stock, including fees of our counsel and accountants, fees payable to the SEC and fees of counsel to the selling stockholder. The selling stockholder will pay all underwriting discounts and commissions and similar selling expenses, if any, attributable to the sale of the shares of common stock covered by this prospectus.

The selling stockholder may sell the shares of common stock covered by this prospectus from time to time, at market prices prevailing at the time of sale, at prices related to market prices, at a fixed price or prices subject to change or at negotiated prices, by a variety of methods including the following:

- in privately negotiated transactions;
- through broker-dealers, who may act as agents or principals;
- in a block trade in which a broker-dealer will attempt to sell a block of shares of common stock as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- through one or more underwriters on a firm commitment or best-efforts basis;
- directly to one or more purchasers;
- through agents; or
- in any combination of the above.

In effecting sales, brokers or dealers engaged by the selling stockholder may arrange for other brokers or dealers to participate. Broker-dealer transactions may include:

- purchases of the shares of common stock by a broker-dealer as principal and resales of the shares of common stock by the broker-dealer for its account pursuant to this prospectus;
- ordinary brokerage transactions; or
- transactions in which the broker-dealer solicits purchasers.

At any time a particular offer of the shares of common stock covered by this prospectus is made, a revised prospectus or prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of common stock covered by this prospectus being offered and the terms of the offering, including the name or names of any underwriters, dealers, brokers or agents, any discounts, commissions, concessions and other items constituting compensation from the selling stockholder and any discounts, commissions or concessions allowed or reallowed or paid to dealers. Such prospectus supplement, and, if necessary, a post-effective amendment to the registration statement of which this prospectus is a part, will be filed with the SEC to reflect the disclosure of additional information with respect to the distribution of the shares of common stock covered by this prospectus.

Underwriters may sell to or through dealers, and such dealers may receive

compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agent.

Any underwriters, broker-dealers or agents participating in the distribution of the shares of common stock covered by this prospectus may be deemed to be "underwriters" within the meaning of the Securities Act, and any commissions received by any of those underwriters, broker-dealers or agents may be deemed to be underwriting commissions under the Securities Act. The selling stockholder may also be deemed to be an underwriter, and any discounts and commissions it receives and any profit it realizes on the sale of the common stock may be deemed to be underwriting commissions under the Securities Act.

The selling stockholder may enter into derivative transactions with third parties, or sell shares of common stock not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell shares of common stock covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use shares of common stock pledged by the selling stockholder or borrowed from the selling stockholder or others to settle those sales or to close out any related open borrowings of stock, and may use shares of common stock received from the selling stockholder in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment).

We may authorize underwriters, dealers and agents to solicit from third parties offers to purchase shares of common stock under contracts providing for payment and delivery on future dates. The applicable prospectus supplement will describe the material terms of these contracts, including any conditions to the purchasers' obligations, and will include any required information about commissions we may pay for soliciting these contracts.

Underwriters, dealers, agents and other persons may be entitled, under agreements that they may enter into with us and the selling stockholder, to indemnification by us and the selling stockholder against certain liabilities, including liabilities under the Securities Act.

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares from the Company in the offering. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the overallotment option. "Naked" short sales are any sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or retarding a decline in the market price of the Company's stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on The Nasdaq Global Market, in the over-the-counter market or otherwise.

Certain underwriters, agents or dealers or their affiliates may have provided from time to time, and may provide in the future, investment, commercial banking, derivatives and financial advisory services to the Company, the selling stockholder and their respective affiliates in the ordinary course of business, for which they have received or may receive customary fees and commissions.

Some of the shares of common stock covered by this prospectus may be sold in private transactions or under Rule 144 under the Securities Act rather than pursuant to this prospectus.
